

Remittances and Consumption Smoothing

Jane Economist

July 23, 2026

Contents

1	Introduction	1
2	Literature Review	1
3	Empirical Strategy	1
4	Discussion	1

1 Introduction

This section stands in for a real introduction. In a real paper you would replace this placeholder with your own text, while the rest of `Day5_Practice_Code.tex` stays untouched.

2 Literature Review

This section stands in for a real literature review, split into its own file exactly as taught on Day 5.

3 Empirical Strategy

This section stands in for the methodology, and defines the `sec:strategy` label referenced later in the main document.

4 Discussion

Inflation targeting has been the dominant framework since the 1990s.¹
See Section 3 or visit our website.

¹See Nandi (2024) for a related discussion of exchange-rate volatility.
